

I do not agree with the local banks. I work all day and when I come home for the evening I do not want to be bothered by unnecessary calls. I would prefer a quiet dinner with my family. It is also annoying when you receive these calls at 7:30pm or 8:30pm when you are trying to get your children down for the night or you have them down and you get the unnecessary call that wakes your child. I feel that's why we have the postal service if they need to contact us they can pay the 37 cents and send a letter. Instead of invading our privacy
